

Luxury, stylish garden
rooms for home gardens
and commercial use

BUILD A KUBE

FIVE YEAR GUARANTEE

By using contemporary design and innovative materials these thermally efficient eco pods offer outstanding value for money. Our approach when it comes to offsite manufacturing is to have control over every aspect of what we do. We embrace the character and quality that can only be found in something that is handmade. If you are looking for beauty, elegance and something a little out of the ordinary this is the perfect range to look at.

The Buildakube range is not just for people looking to add extra space to their home but for anyone looking to add character and beauty to their garden. This clever design means that it will easily function as any kind of room – home office, home gym, teaching studio, summer house, granny annex, consulting room, music room, library, artist studio or any kind of space to relax and unwind

MANUFACTURED OFFSITE AND DELIVERED AND INSTALLED INTO POSITION

BUILDAKUBE

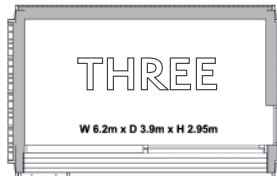

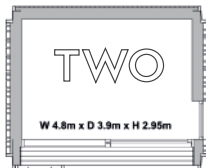

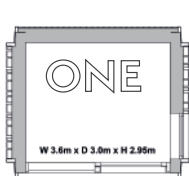

Designed by an award winning Architect the 'BuildaKube' comes in 3 different variations to fit different plot sizes/requirements and will create a high quality additional flexible space for its owners

ACCOYA TIMBER

We use Accoya timber in all our cladding and decking. The world's leading long-life sustainable wood is guaranteed for 50 years not to rot. Accoya delivers remarkable levels of performance.

Its features and benefits : barefoot friendly, naturally insulating, insect barrier, consistent quality throughout, from sustainable sources, retained strength and hardness.

A MODERN ALTERNATIVE
TO HOME EXTENSIONS
